Objective

Enthusiastic and diligent frontend developer seeking a challenging role in a dynamic organization where I can apply my technical skills and experience gained from an internship at ERNET-Delhi. Eager to leverage my expertise in ReactJS, JavaScript, and web development technologies to contribute effectively to team success and innovation.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, ReactJS, Tailwind CSS
- **Backend & Database:** Node.js, Express.js, MongoDB, MySQL
- **Tools:** VS Code, Pycharm, Git
- **Operating Systems:** Windows, Linux

Education

**Master in Computer Application
(MCA)**

Pondicherry University - CGPA: 7.1
Completed: 06/2023

**Bachelor in Computer Application
(BCA)**

Patna University - CGPA: 7.4
Completed: 07/2020

Professional Experience

Web Developer Intern

ERNET-Delhi (6-month internship)

- Developed and optimized responsive web applications using ReactJS and JavaScript.
- Collaborated with back-end teams to integrate front-end components with Node.js and MongoDB.
- Enhanced UI/UX by implementing intuitive design elements and ensuring cross-platform compatibility.
- Improved application performance by reducing load times and implementing efficient code practices.
- Gained experience in version control and project management with Git.

Projects

SanskritiGhee (E-commerce web App) –<https://sanskritighee.com/>

Developed the front end of this project in collaboration with a backend team, using ReactJS to build modular, reusable components. Integrated RESTful APIs to display real-time data and enhance user interaction. Contributed to code reviews and troubleshooting efforts to maintain high quality, efficient code

Recommendation System (Academic Project)

- Utilized collaborative filtering and clustering techniques to develop a book recommendation system.
- Leveraged Nearest Neighbor clustering algorithms to optimize recommendations based on user ratings

Hobbies

Reading, Music, Social Service, Traveling
